MOTLOW STATE COMMUNITY COLLEGE
is accepting applications for the following positions:

Instructors: Chemistry, Mathematics, Physics

Application deadline: July 5, 2016
Annual Salary: $40,000

Motlow State Community College, the fastest growing college in Tennessee, is seeking energetic and student-focused faculty to teach Chemistry, Mathematics, Physics, and Physical Science courses at our Smyrna and other campuses, as teaching assignments require. Motlow State Community College offers day, afternoon, night, weekend, online, and accelerated courses at four campuses to approximately 5,200 students.

**Educational/Experience/Skills Requirements:**
A Master’s degree in Chemistry, Mathematics, or Physics or a Master’s degree in another area with at least 18 graduate semester hours in one of these three disciplines from a regionally accredited college or university is required.

**Major Duties and Responsibilities:**
- Travel to multiple campuses
- Work as part of a team
- Teach a 15 hour load per semester (summers voluntary)
- Advise and mentor students about academic and career goals
- Serve on college committees

More detailed job descriptions for these positions are included with the online applications. To ensure consideration, interested applicants must submit an application and resume [online](https://jobs.tbr.edu). Once the online application is complete and the resume is attached online, a confirmation number will be given to the applicant.
