MOTLOW STATE COMMUNITY COLLEGE

is accepting applications for the following position:

Programmer/Analyst II

Position Number: #186
Application deadline: Open until filled
Annual Salary: $47,000

Motlow State Community College is the fastest growing community college and has the safest campuses in the entire state of Tennessee and was named one of the top 50 employers of HBCU students and graduates in 2013-2016. We are located in the beautiful rolling hills of middle Tennessee and have four campuses that serve students from eleven counties. We offer a comprehensive benefits package which includes an excellent retirement package from the state of Tennessee, 401K plan with match, thirteen paid annual holidays in addition to annual and sick leave days, health and dental insurance, tuition discounts and state employee discounts.

Qualifications:
A Bachelor’s Degree in Computer Science, Information Systems or a related field, or an Associate’s Degree with three (3) years full-time work experience in a computer related field to include computer operations/networking and/or computer programming and/or computer instruction are required. Experience with PL/SQL is also required. Knowledge and experience with Banner, Oracle SQL and ARGOS is preferred.

General Function:
The Programmer/Analyst II performs with minimal supervision those duties involved in the design, programming, implementation and maintenance of administrative computer applications on Banner on Sun Solaris. Duties include consulting with users on designing and implementing solutions to problems and training users on the use of the systems.

A more detailed job description for this position is included with the online application. To ensure consideration, interested applicants must submit an application, resume, and transcript(s) online at https://jobs.tbr.edu. Once the online application is complete and the resume is attached online, a confirmation number will be given to the applicant.
