I. PURPOSE

 2. Offer professional development for faculty and staff.
 3. Recommend policies and procedures that encourage intervention, to maintain a safe learning environment.
 4. Establish communication protocol for all campuses, respecting the need for sensitivity and confidentiality for troubled students.

II. APPLICABILITY & SCOPE

The CARE Team meetings, and activities that stem from it, are applicable to all currently enrolled students. Although the CARE Team will respond to any campus emergency, most circumstances that are due to natural disaster or extreme threat will require immediate response from the Public Safety team, the President of the College, and other applicable campus officials. The threat assessment process can occur within the scope of the CARE Team, using the NaBITA Threat Assessment Tool (see Appendix A.). The CARE Team will also collaborate with other entities on campus to provide preventative activities for students related to personal safety, such as alcohol and other drug use.

III. RESPONSIBILITIES

 1. Educate the campus community about behaviors of concern and reporting procedures;
 2. Provide consultation and support to faculty, staff and students in assisting individuals who display concerning or disruptive behaviors;

 4. Triage reports by identifying patterns of aberrant behaviors that may suggest the need for an intervention;
 5. Assess threat/risk;
 6. Assess available resources;
 7. Coordinate follow-up by connecting individuals with needed campus and community resources;
 8. Observe ongoing behavior of individuals who have displayed disruptive or concerning behavior;

9. Communicate a clear set of instructions to the campus community on when and how to report aberrant behavior;
10. Communicate a clear set of instructions for responding to a wide range of concerned behaviors and emergencies to the CARE Team committee members and leadership staff.

IV. REPORTING AND RESPONSE PROCESSES

- A. Faculty, staff and students are encouraged to submit behavioral referral forms listing specific concerns relative to observed behaviors.
- B. The form should be completed when faculty, staff or students observe or are made aware of a member of the campus community's behavior that may warrant further follow up and/or documentation.
- C. The form is located on Motlow State Community College's website under My Motlow. Once a referral has been submitted, the Director of Public Safety, Licensed Professional Counselor, and Dean of Students/CARE Team Chair, will review to assess the appropriate action.
- D. The CARE Team will review behavioral cases using the NaBITA Threat Assessment Tool as necessary.
- E. The CARE Team will determine next steps and course of action, using the MSCC Emergency Response Guide. (see Appendix C)

APPENDIX C.

Motlow State Community College is committed to providing the safest learning and working environment possible for all of its campuses. Below are the color codes and procedures the College will utilize when confronted with hostile and potentially volatile incidents on all campuses. There is no "one size fits all" protocol that will work properly in every situation because procedures must reflect differences in incidents and resources. The appropriate Academic Dean shall be the primary point of contact for all non-emergency incidents, and all non-criminal incidents. The appropriate Academic Dean is responsible for ensuring the required Electronic Incident Report is completed. It is understood that the color coded response guide procedures may not be activated in every situation. Not all criminal incidences will require the activation of the color coded response guide procedures. If a determination is made to activate the color coded response guide procedures, the procedures should be activated as soon as it is practical and safe to do so. These "color codes" and procedures should only be used when any of the included criteria are met.
